SUMMARY

Python backend engineer based in Tashkent with 5+ years of experience. I build web platforms, REST APIs and Telegram bots end to end, with a focus on Django + DRF for web systems and FastAPI for mobile-facing APIs. Experienced building national-scale education platforms on the .edu.uz domain. Open to new backend opportunities — remote or on-site in Tashkent.

EXPERIENCE

Freelance Python Engineer

2025 — Present

- Build backend systems, REST APIs and Telegram bots for clients end to end.
- Django + DRF for web platforms, FastAPI for mobile-facing APIs; own deployment and PostgreSQL schema design.

Software Engineer, Python Backend · [Center for Development of Digital Education Technologies \(e-edu.uz\)](#)

Nov 2021 — Dec 2024

- Built national education platforms on the .edu.uz domain — my.edu.uz, magistr.edu.uz, olimpiada.edu.uz, vacancy.edu.uz, stipendiya.edu.uz, litsey.edu.uz, kasb.edu.uz.
- System and database design; developed core features and integrated systems through microservice logic.
- Handled high request throughput at national scale.

Software Engineer, Python Backend · [Media Solution LLC](#)

Feb 2021 — Nov 2021

- Built securityhub.uz (@agsecuritybot) and a series of delivery Telegram bots (@wendysdelivery_bot, @wendyskzdelivery_bot, @motideliverybot and others).
- Strengthened system & database design and became proficient in Telegram bot development.

Python Developer · [Thinkland](#)

Sep 2020 — Feb 2021

- Wrote backends for freelance projects and built lupa.jamgirov.uz, a tool that helped students prepare for university exams.

SELECTED PROJECTS

my.edu.uz — National Education Portal Django · FastAPI · PostgreSQL · Docker

Interactive online services for the higher, secondary-special and vocational education system.

magistr.edu.uz — Master's Admission System Django · FastAPI · PostgreSQL

Online application and admission system for master's degree programs, handling applicants nationwide.

olimpiada.edu.uz — Science Olympiad System Django · FastAPI · PostgreSQL

Organizing and running science olympiads across higher education institutions — registration, scheduling, results.

SecurityHub (securityhub.uz) — Digital Security Cloud Django · PostgreSQL · Vue.js
Cloud service that remotely sends security notifications and can block devices; controlled via a Telegram bot.

Wendy's Delivery Bot Python · pyTelegramBotAPI · PostgreSQL
Telegram bot for food ordering and delivery — menu browsing, cart and order flow.
